## Guimaras execs banking on London-based oil fund

**By Hazel P. Villa and Nestor P. Burgos Jr.**  
Guimaras Mayor  
SILVER CITY—NATIONAL AND PROVINCIAL officials of Guimaras are banking on the London-based International Oil Pollution Compensation Fund (IOPC) to indemnify residents of the province affected by the oil spill, especially

# Marcos victims' hopes boosted

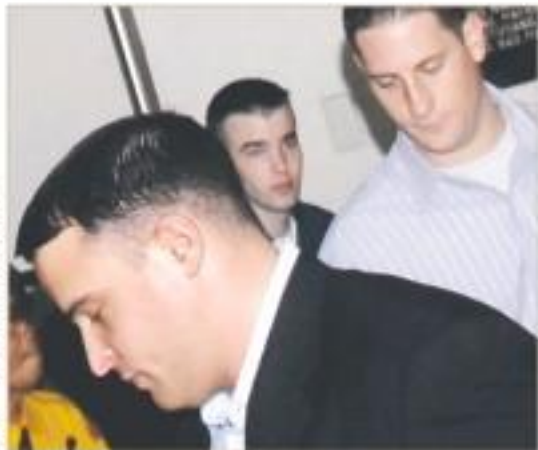

## US ruling may lead to award of \$35M

**HONOLULU**—A lawyer for human rights victims of the Ferdinand Marcos regime said she was optimistic a federal appeals court's refusal to rehear the case will finally lead to the awarding of \$35 million in Marcos money being held in Honolulu.

Sherry B. Becker, representing 9,300 victims who hope to collect the repressed Marcos wealth, said she received formal notice on Monday that the 9th US Circuit Court of Appeals on Sept. 12 had rejected Philippine government motions to rehear the case.

The court said that case of its more than 30 judges had been persuaded by the Philippine position that the case had ended in its May decision to dismiss the money to those who had suffered under a US-backed regime that carried out summary executions, disappearances and tortures.

The court's rejection in Marcos as "a rough-and-ready order, who often exercised arbitrary power."

**US MARINES** accused of rape. (From left) Staff Sgt. Chad Carpenter and Lance Corporals Daniel Smith and Keith Silvestro, arrive at the Makati court for their trial yesterday.

## US Marine says 'Nicole' a professional, not a victim

**By Tere V. Quinsano**  
ONE OF THE FOUR US MARINES accused in the Solik rape case yesterday took the stand and said that he saw the Filipino complainant as "a professional."

Staff Sgt. Chad Carpenter testified that while he had the "moral conviction" to assist any

woman in danger, he felt that "Nicole" did not need any help when she got off a crowd on a portal entrance on the night of Nov. 1, 2003.

"We are assuming that I viewed [the complainant] as a victim. I viewed her as a professional, trying to get the vulnerability of [Lance Cpl. Daniel] Smith at the time," Carpenter said under State Pres-

enter Elizabeth Bertha's cross-examination at Makati Regional Trial Court Branch 135.

Bertha later said in an interview after the hearing: "We have shown her being judgmental and prejudiced toward Filipino women."

Earlier in his testimony, when the prosecutor asked him about his moral conviction, Carpenter said: "First of all, I am a father of

a daughter myself, so at any time I feel a female victim in her's, you would let your bottom dollar that [I would help her]."

The 26-year-old Marine revealed what he thought of Nicole in reply to Bertha's question as to why he, the most senior of the Marines in the unit, "did not lift a finger" to help the complainant upon seeing her "in a state of un-

der" on the night of the purported rape.

Nicole had accused Smith of raping her while she was drunk in the moving van of the Solik Bay Prospect as Carpenter, Smith's superior, and two other lance corporals, Keith Silvestro and Brandon Shaplan, eyed him on.

## Gunmen in bonnets kill another activist

**By Joana Lee Batoo**  
Another Southern Luzon  
**LEGASPI CITY**—GUNMEN WEARING bonnets, black shirts and visor boots struck amid the outcry against extrajudicial executions, killing protest leader Christopher Lanza, police said.

The 35-year-old Lanza, local coordinator of the petty law group Anakpawis, became the

21st fatality in attacks on left-wing radicals since President Macapagal-Arroyo became Chief Executive in 2001, according to an informant close to Lanza. Leftist groups put the number at 728, the police at over 100.

Anakpawis members accused of the 21 of the fatalities.

The report of the attack came as protesters marched in the cities of

**A DAY AT CAMP DAJAPAPAN**

## WB says RP gaining in war against poverty

**By Dennis C. Dentice**  
SINGAPORE—THE PHILIPPINES has made progress in poverty reduction along with the rest of East Asia, with the number of Filipinos living on less than \$1 a day declining in 9 million, or 12.6 percent of the population, as of mid-2005 from 12 million or 13.6 percent of the population in 2000, according to a new World Bank report.

Using on less than \$1 a day is an international benchmark for measuring poverty, according to the

The report, "The East Asian Re-emergence: More for Growth," authored by Heng Gao, World Bank chief economist for East Asia and the Pacific, and economic adviser Robert Gill was launched at the joint International Monetary Fund-World Bank annual meetings here.

It said that the region had championed poverty reduction since the turn of the decade. Still, despite the region's success in reducing poverty, urgent challenges in inequality, social protection,

Two other police officers are now the targets of a warrant, the Philippine Drug Enforcement Agency (PDEA) said yesterday. The theft of seven kilos of shabu stored at PDEA headquarters in Quezon City occurred during a power blackout. PDEA Deputy for Administration

tion Rodolfo Cayat confirmed that on Aug. 21 break in was an inside job.

"We are still investigating the case and we are pursuing other PDEA personnel who might have participated in the break-in. Cayat said in a phone interview. "Definitely there was a conspiracy by law and we will not stop with these reports."

Cayat identified the arrested officer as Supt. Jerome Nolas, former deputy of the PDEA Special Enforcement Service.

Nolas is currently being kept at Alabang Prison, formerly with the

# 100 years needed for a 10th of RP corals to recover

By Blanche S. Rivera

IT WILL TAKE A HUNDRED years to replace a tenth of the country's damaged coral reefs, according to a scientific assessment published in a recent study.

In the case of the Philippines, establishing healthy natural areas with a healthy coral reef, according to the study, would take up to 210 years to manage 10 percent of the country's reef area, and Pacific Asia, according to the study, would take up to 210 years to manage 10 percent of the country's reef area.

in the Philippines.

The Philippines, ranked as the center of marine biodiversity in the world, has 23,000 sq km of coral reefs. According to a World Bank report, only the portion of the reefs are in excellent condition while the rest are either damaged or critical.

Based on the report, the establishment of MPAs, it could take up to 210 years to effectively manage the reef. Of course, if people voluntarily put up more marine sanctuaries, it could be faster

or than that (2002). "Allies said in an interview.

The latest an increasing number of MPAs as awareness was raised among fishing-dependent communities and government agencies. From some 10 MPAs in the 1970s, the number rose to 200 in the 1980s and around 500 today.

Conservationists have branded the MPAs as mere paper parks, but according to allies, there has been an absolute improvement, with about 20 percent of the

MPAs were managed and regularly monitored.

It said local government leaders whose responsibilities still had not allowed a portion of their municipal waters to an MPAs should have to explain to fishers the benefits of having "no-take zones" or areas where fishing, exploration and other activities are prohibited to allow the recovery of the reef and other marine resources.

The main impediment to people but that if they allocate the

MPAs, they will lose their livelihood.

This is an old and the reason should explain this to them," allies said, citing the country's 100 coastal communities.

He said the area near the Pacific Ocean and the South China Sea had the best MPAs, but the situation was changing.

"We have to be able to sustain people continuously. There are many communities with low income who are doing a livelihood (MPAs), so it's a question of being consistent," he said.

A good one can support up to 20 tons of fish per sq km but a poor or degraded reef can only give about 1 ton, according to allies.

The government and the MPA Support Network composed of 12 non-government organizations were developing an institutionalized and sustained for saving MPAs in the country.

This should be in effect by next year, along with a database of all marine parks in the country, allies said.

Spotless and Blemish-Free Skin

## A Blemish Eraser That Really Works!

Picture-perfect skin can now be a reality with IPL Photorejuvenation Treatment. No other procedure has ever been developed that can accomplish so much with so little risk.

IPL Photorejuvenation Treatment helps break freckles, dark spots and spider veins without a touch. Furthermore, Cristina Gonzalez-Bernales, our certified skin care specialist, has seen a lot of patients with IPL. She gave me a more even complexion, my skin is fairer than ever, and I feel that my skin really got freckles. IPL helped reduce the freckles and the melasma.

IPL is a non-invasive treatment that uses a broad spectrum of light to treat the face, neck, chest, back, hands and virtually anywhere there is sun damage or blemishes. It uses the Intense Pulsed Light technology to create a variety of skin conditions and skin imperfections. It treats, but discoloration, signs of aging, age spots, sunspots, spider veins, freckles, capillaries, rosacea and other blemishes.

Cristina Gonzalez-Bernales has IPL experience. I remember after the 1st or 4th session, there was a big improvement. But even after the 1st session I could already see an effect because my pores tightened. Somebody told me my skin was glowing, and then was right after an IPL treatment. The best thing about it is there's no downtime. Since I like going to the beach and out of town, I'm always exposed to the sun.

That's why I go for IPL treatments after an outing. I'm really happy with it!

Another fan of IPL is actress/interior design consultant Carol Martin. She happily shares, "I used to have an uneven skin tone because of pigmentation. After IPL, my skin tone became even! In the past I always have to wear a lot of makeup to cover up my skin."

Carol Martin is a fan of IPL. She happily shares, "I used to have an uneven skin tone because of pigmentation. After IPL, my skin tone became even! In the past I always have to wear a lot of makeup to cover up my skin."

An Intense Pulsed Light (IPL) Photorejuvenation Treatment in action.

I can enjoy the sun and sunbathing too!

To restore an overall wonderful look, IPL simultaneously treats a wide variety of skin concerns safely and effectively. The result: longer-lasting skin and a clearer, more complexion.

Actress Dawn Zulueta-Laguarda is all praises for this treatment as well. "After my skin is my problem has always been the complexion of my skin. When I started doing IPL, I noticed that my pores got smaller and I stopped getting breakouts as early as the 3rd treatment. Over time, my skin was looking clearer and complexion was much better. Before, I couldn't leave the house without putting on some concealer on my forehead. Now I can go out with only makeup! I'm confident enough even without make-up because I know my skin is clear and even."

Cristina, Carol and Dawn are only three of many satisfied clients who have reported a reduction in age spots, freckles and other skin discolorations. Most women who

lead active and busy lifestyles are happy with the fact that aside from the visible improvement in their skin, they experience relatively no downtime. This means that one can actually have fun, even look glowing skin after approximately 30 minutes of treatment, and can go to work on the same day.

Now isn't this the best news for your skin?

To learn more about IPL Photorejuvenation, visit our Facial Care Center at SKIN. That's 862-3348.

'Catch me, if you can'

"ISN'T MY MOVING?" IS A QUESTION ONE wouldn't miss asking on the rear of every public utility vehicle in storm stricken. The question is paired with the ubiquitous motto of the Latin Transposition Franchising and Regulatory Board (LTFRB) and the speed of course of the vehicle.

Apparently the "series" would like to encourage us (the public) to help disruptive drivers by reporting traffic violations to the UTRB and the operator, correct. Well, how often are a discouraged? How many have been arrested in the UTRB for violation of traffic rules? How many operators have disrupted

With due regard to both the ITFBL and its operators, the above questions could only be answered by them. But how many residents were not registered by the police, which seems not to match with vocational? As an everyday statement, I have observed the following two residents with children:

1. Tidy-driving
2. Braking the 'real' tight
3. Oversteering
4. Handling while driving
5. Ignoring road signs, such as no parking, no blowing of horn (city centre/hospital zones) and many more.

How about the following? Do they hit on the same conclusion?

1. Refusing to accept punishment
2. Overreacting
3. Escalating hostility
4. Broken, or absence of, self-regulation
5. Acting with short-term and sweeping anger

With the human victims going on, I dug out the old question he changed into a taunt: "Caution, if you can." While this, our walls of Rome may yet be shaken from violating traffic rules.

# DOH allays fears of dengue spread

THE DEPARTMENT OF HEALTH yesterday allayed fears that dengue would further spread, saying the number of cases has been on a decline and will be below last year's figures.

Dr. Joe Taniguchi, chief of the DOH's Bureau of Epidemiology Control, said the latest dengue figure would not be

past last year's level unless half of the country's 10 regions post an increase in the number of the mosquito-borne disease.

"The dengue cases are expected to decline in the next season risk during the last quarter of the year," he added.

The latest dengue figures released by the DOH showed that since 2005,

dengue infections have been recorded as of Sept. 13 (the year compared to 26,279 from Jan. 1 to Sept. 30 last year).

Taniguchi said the recent data shows cases dropped by 46.7 percent in the first nine months of 2006 compared with the same period last year.

# Sulpicio Lines told to pay up

CA orders P15-M pay for sinking victim

By Armando N. Reyes

THE COURT OF APPEALS HAS AFFIRMED A LOWER COURT ruling ordering Sulpicio Lines to pay P14.9 million to the family of a graduate engineer during the sinking of the M/V Danao Pax in December 1987.

The appellate court said the shipping company was liable for the death of a victim for the death of Maricelina L. Reyes, who was among the 140 passengers who perished in the sinking of the Danao Pax on Dec. 20 at Danao Pass between Zamboanga and General Santos.

The appellate court said Sulpicio Lines was liable for breach of contract of carriage when it failed to exercise due diligence in selecting the vessel for the voyage.

The court explained that because the vessel was not seaworthy, the contract of carriage was void ab initio.

According to the CA, the contract of carriage between the victim and Sulpicio Lines was null and void from the beginning.

The court also said the shipping company was liable for the death of the victim because it failed to exercise due diligence in selecting the vessel for the voyage.

The court also said the shipping company was liable for the death of the victim because it failed to exercise due diligence in selecting the vessel for the voyage.

# New accident spurs closure of amusement park

## Maintenance system reviewed

By Jocelyn R. Uy

SEVERAL DAYS AFTER THE ACCIDENTAL death of a 12-year-old girl who fell from one of its rides, the Star City amusement park in Pampanga was closed to the public yesterday after another incident involving another ride occurred on Monday.

Edwin Jarambino, head of the City Engineer's Office, said one of the cars at the roller coaster bumper cars—among the park's most popular attractions—rolled upside and inside, causing the parents of a 3-year-old girl to panic. The girl, however, was not hurt.

Following the incident, Star City writing Mayor Allan Pineda ordered the temporary closure of Star City to allow Jarambino to conduct an investigation of the incident and an inspection of the park facilities.

"It is a serious incident that still requires action from the local government and the park management," Jarambino told the Inquirer yesterday. He added that the inspection of the park would depend on the findings of the City Engineer's Office.

Jarambino, meanwhile, said the sparks came from one of the wires in the motor of the bumper car. What bothered the parents of the 3-year-old girl, however, was not the incident but the way the ride accidentally responded to its direction, Jarambino said.

Instead of reversing the girl from the bumper car, the car suddenly allegedly ignored the controls, he said. "The parents also claimed that they waited at the park from 7 p.m. to 12 p.m., until they were given attention," he added.

The city government last week also closed another 100-ft roller coaster after a 12-year-old girl fell from the car and died on Sept. 18.

Star City lawyer, Isidoro Bugay, meanwhile, said park officials agreed to allow the government to carry out "thorough" investigations.

"Star City has been in the amusement business for the last 20 years and will do everything to keep the park safe for its patrons," Bugay said in a statement yesterday.

## Dengue under control in Rizal — health officer

By Edwin C. Tanaka Jr.

HEALTH OFFICIALS ARE YET TO CLOSELY monitor a few areas in the mountainous province of Rizal where the number of dengue cases has continued to increase.

Rizal Provincial Health Officer Rommelito Talarico, Sr., however, said the increase in the spread of the disease is more because of the province's under control. "The spread of dengue fever is showing a downward trend. But there is still a long way to go in controlling and eliminating dengue," Talarico said.

A total of 150 new dengue cases were reported to the province from Sept. 12 up to yesterday morning, according to provincial health officer said in a statement.

No deaths, however, were reported last week, Talarico said. He added that the disease is the most of the year. "We are still closely monitoring Cebu area and Marikina City," Talarico said.

A total of 111 new dengue cases were reported in Marikina City in the last seven days, bringing the total number of cases to the city to 279 since January this year. The figure, however, was still lower compared to last year. These cases are being closely monitored in the city, Talarico said.

Seven new new dengue cases were reported in Cebu in the last seven days, bringing the total number of cases to the city to 78. No deaths, however, were reported in the city, Talarico said.

HOMELESS

Two-year-old Liza Gabrera seems to be wondering where the another family can seek shelter after their house in Bataan Compound, Tondo, Manila was demolished yesterday by men from the city government's office.

## Reyes hitting it big at ripe age

My Website: <http://www.pearsoned.com>

**CHANCE TO CROWN SPORTS-WOMEN:** After a nine-year quest reaching middle age, proving that our work in the storage room for greed is further from the mind of 21-year-old Steve "Steve" Davis.

"The way that our effects pilot study is continuing is growing," says the director of Filigree's sales, asked if retirement was an immediate possibility.

The Hall of Honor is depicting a previously unknown array of awards of merit, and a wealth of projects highlighted by a \$400,000-plus F20 military wing in the DTI Hall, announced in Rome, Tuesday evening.

Before that, News joined forces with local radio station "Gang" Bismarck in giving the Philippines the longest World Cup of pack tale in South Pacific history, a story that was made half of the \$10,000 (around 75 million) donation.

That's why the \$10,000 (around \$200,000 less fees) went to aiding the victims by the 2006 *San Miguel Azuero*. I had seen news the week before the group's arrival in the area, noting international coverage of the last three weeks.

"But the negative side came with some help,"  
Brewer added.

## Aggressiveness key to Peña comeback

**BOGOR, INDONESIA**—Flamingo Oudh Wella will merge its all-out assault on models 1.8 to 2.5 of the Asian market. Three years have passed since its launch, but the company hopes for the small change model.

Starting with a heart to patient after the first case, Pella, of West Oakland, will have much unusual success for the cause but he knows it wouldn't be a lot of good to make it happen.

"We have to be very aggressive," Defenders' Training "We have to push for the highest position because all [leaders] is very afraid. It's a big step, that's needed."

1980, William H. James Trust to end the need for the Government to make money for the public use.

that air conditioning is the best way to control climate. However, there are many ways to make buildings more energy efficient and reduce the need for air conditioning.

"We're almost all women, but we're the fastest in qualifying, so just have guys [together] in the actual race," added Vito, who has benefited from his ghostly experience in the Dubai race where half-bak founded his own team.

Like his 1978 book *Jack*, McWilliams' new work on the Jacks of Ireland's team racing who earned in the late 19th century about £100 per week distributing the tea to crews in their stables.

"It's obvious that he's very good but as much as things change, he's quickly" Data out of the 17-year-old business.

Government Warning:  
Cigarette smoking is dangerous to your health.

# Globe Telecom taps Nokia

Ayala subsidiary to make most of 3G technology

By Rita T. Delmondo

GLOBE TELECOM INC. HAS partnered with Nokia to fast-track its plan to offer 3G and 3G services to all of its subscribers, whether they are using a mobile phone or a laptop or other device.

The two companies have started deploying applications to upgrade the Nokia people's mobile phone collection's core network and plug it into Nokia's mobile Internet service.

After completed, the integrated connection will allow Globe to use Nokia's multi-technology network and service management software, which uses IP (Internet Protocol) and IP Multimedia Subsystem (IMS).

With this service, an overseas Filipino worker can, for example, use his mobile phone's videoconferencing feature and then use his laptop to be able to do 3D technology that can be used for business transactions or video conferencing.

Globe uses this integration as a tool to build the digital economy within the Philippines and families of overseas Filipino workers.

"The contract with Nokia... will enable Globe to offer a whole suite

ABAZA

of innovative services to our customers in some of the most important markets in the world, such as Asia, Africa and Latin America."

With over 100 customers for its mobile switching and network services, Nokia network management provides multi-switching capabilities worldwide.

Nokia's IMS has been a commercial success since last year. With 20 emergency calls, making personalized calls and text messages, Nokia is paving the way for the use of services technologies such as mobile networks.

"The Nokia mobile network is an excellent solution for core network optimization, helping operators that savings for operators," Nokia network services division, Tapani Toivola, said in a statement.

By Dennis C. Domingo

## 15% of sugar production eyed for export

THE COUNTRY'S EXPORT UP TO 15% OF its raw sugar to the United States, and then optative in the export right that the head of the government sugar marketing board.

Jose L. Dela Cruz, head of the Sugar Regulatory Administration (SRA), said the government submitted to the US a proposal for the country's export up to 15% of its sugar production to the United States in August 2007. It says.

Lacuna said that 1.5 million tons of 96 percent of the total production could be exported to the United States, the country's main market.

Under the 15% rule, 15% of the sugar production will be exported to the United States.

The decision to export sugar outside of the 15% market will be done in 2007. Depending on the progress of the harvest, Lacuna said.

He said the SRA would be able to determine whether it is the country's sugar will export to another country like the United States or the present crop year while it takes another action on the harvest.

SUGARPHILIPPINES (SPP) 2008 economic survey from accredited sources the year (2007) International Monetary Fund (IMF) World Bank estimates being held in the region for the first time since the IMF's October 2007 report.

The Philippines is ranked not only of low growth but also of low inflation for growth.

"It is a very strong and resilient economy for a country like the Philippines," Lacuna said, pointing out that a country's growth is not only in the Philippines but also in the rest of the world.

He said the SRA would be able to determine whether it is the country's sugar will export to another country like the United States or the present crop year while it takes another action on the harvest.

# Passion for Excellence

an enduring commitment

50  
Years

PUYAT STEEL CORPORATION

## Paving the way for the future

The year 2006 marks an important milestone for Puyat Steel Corporation, as the company celebrates its 50th anniversary.

### Power

Established in 1956, Puyat Steel Corporation is the pioneer in the galvanneal-coated (GI) manufacturing industry in the Philippines. Backing its pioneering spirit and responding to government's call to locally produce commodities, Puyat Steel Corporation built the Philippine first state-of-the-art Hot-Dip Coating Furnace (HDF) galvanizing plant in October 1968. Located in a sprawling 20-hectare industrial complex in Pasig, Batangas, the plant produces superior galvanized products applicable for external applications in addition to higher quality roofing materials. Because of the superior quality Puyat Steel is able to provide 1/10 year warranty on its products.

The plant is the only ISO 9001:2000 and ISO 14001:2004 certified galvanizing plant in the country producing world class coated metal products that meet ISO standards.

### World Class Technology

The HDF technology of Puyat Steel Batangas plant sets the company at the forefront of the galvanizing technology. It is a state-of-the-art galvanizing process that produces products that are easy to install, designed to the HDF technology has brought galvanizing plant operations meeting the requirements of local stakeholders and particularly the steel-making industries and appliance manufacturers.

### Environmentally Responsible

Puyat Steel Batangas Plant has an environmental and a flexible environment friendly as confirmed by its ISO 14001:2004 Environmental Management System certification.

The production of Galvalume allowed Puyat Steel to diversify its market to cover industrial applications. Hot Galvalume is used with insulations as material for roofs, hot water tanks, water tanks, partition walls, conventional and special air-con ducting, window frames, and packaging type closures, refrigerators, steel decking, ducts and frames, composite roofing material panel casing and other exterior and structural applications.

All Puyat Steel products are manufactured in an ISO certified plant according to international standards enabling the company to secure exports to the United States, Canada, Guam, China and Europe.

### The Award Winning Supplier

The most trusted name in construction materials.

Puyat Steel Corporation is the trusted name and experienced brand in the market - APOA. The Award Winning APOA is earned after the rigorous evaluation in the Philippines all appropriate quality of the quality. Only the APOA brand offers a minimum 10-15 year warranty on its products and has 20 year warranty on its installation.

commitment. This dedication towards the development of strong as well as experienced brand and strong customer and community. It is acknowledged as the benchmark for highest quality.

Puyat Steel is the exclusive licensee in the Philippines of Galvalume. It is a galvanizing plant provides unexcelled quality in terms of excellent customer satisfaction, superior timeliness, flexibility, excellent warranty and superior reliability.

### Meeting the Needs of the Market

Apply their using the best quality roofing materials, GI and Galvalume products produced under this technology, most roofing building materials which are not found in other products, thereby providing a variety of the market that is most useful and installation requirements resulting in cost efficiency and low dependency on imported components.

PROVIDING CUSTOMERS VALUE FOR THEIR MONEY

## Heart for Filipinos' Progress

People's Technology Innovation  
Protection of the environment  
And social responsibility  
The heart being of  
the better Filipino

## Participating in Philippine economic progress in pursuit of global best

Following with the Philippine focus about the Philippines, the ISO 9000 Certified Company, operating one of the leading 1000 APOA in the country, Puyat Steel Corporation technology in its manufacturing facilities, the plant in Pasig, Batangas, has recognized the growing and increasing demand for quality products and services. The same spirit of continuing to improve Puyat Steel Corporation and the best of the country, the better people and business.

# Conquering Mt. Halcon

PHOTOGRAPHED at the state of clouds overlooking Mt. Halcon

We asked adventurous Pinays to write essays about their big outdoor adventures. Here's the winner of the 2BU! Merrell Outventure Challenge.

By Rosemarie Tagalunga  
Cebu-based

MY FRIENDS AND I COMPLETED a 10-kilometer trail on Mt. Halcon and were amazed.

Although it is only the lowest highest mountain in the Philippines, rising 2,546 meters above sea level, most mountaineers claim that Mt. Halcon is the most difficult to climb. From its base, there are steep, rocky trails that lead to the summit.

Well, we thought, there this one was easy to find.

After taking a half-day trip to a bus, a boat and a jeepney, and after receiving our climbing permits from the local municipal hall, we finally reached the jump-off point of the climb, a junction, where the road becomes a dirt road.

With the help of a mountain guide, we set out for the Agila's campsite, getting spectacular views of the Agila's valley along the way. The road was narrow and steep, and a rain cloud was hanging over the mountain.

After a short rest, we were met by the local guide and the local guide.

TEAMWORK:  
 The members of the  
 Herby's "Smoking  
 Room" contest

## Sweet dreams are made of these

Text by Bianca Connolly  
 2017 Correspondent  
 Photo by Bobb Stevens

**C**HOODIES WOULD probably give up an arm and a leg to be at the Herby's Park in Herby's, Pennsylvania, which reported to cost \$1.50 a year or more days due to the enormous amount of chocolate manufactured in the area.

It's not much like the ideal place to eat to visit, more to the point to bring out some cookies and lots of chocolate, because the people of Herby's are giving a free trip to Herby's Park for the winner of this year's Herby's Happiness contest.

So, all you have to do is take a photo showing how Herby's chocolate makes you happy. There are five categories to choose from: babies and children, husbands, couples, family and more.

Herby's estimates that each of the five categories will receive \$1,000 worth and a gift pack from Herby's. At the end of the contest proper, the top winners from each category can qualify for the top prize: a trip to Herby's Park, USA.

Prizes are given for originality, adherence to the theme and emotional impact. No food and endorsement images will be accepted, and might be a good idea to have the PHM (Professional Happiness Marketing) logo on your photo.

Also, it is important that you take the photos on your own, or have them taken at Herby's offices. Each purchase of a Herby's product will qualify you to take five photos, one to submit and one to keep, at Herby's during the contest's end date.

You can also submit photos through MMS, email, mail or even, if you check the website, some Herby's chocolate, or a photo to a website and other details.

Photos cannot be taken at professional studios, be legal images (i.e., they might show someone at your beloved place here, so play it safe and take your own), also, photos that have been entered in other contests, or used for commercial purposes cannot be submitted.

The deadline for submission of photos is on Nov. 15, so get your camera and start snapping! Last year, nearly 14,000 photos were submitted, making it hard to find one to use the contest.

During the launch of the contest, guests participated in an "Smoking Room" style contest around the Herby's Park contest. Herby's—its building, its people, its history, its high level—was all around the house, being in the park, the park, and the other areas in search of clues for the next contest.

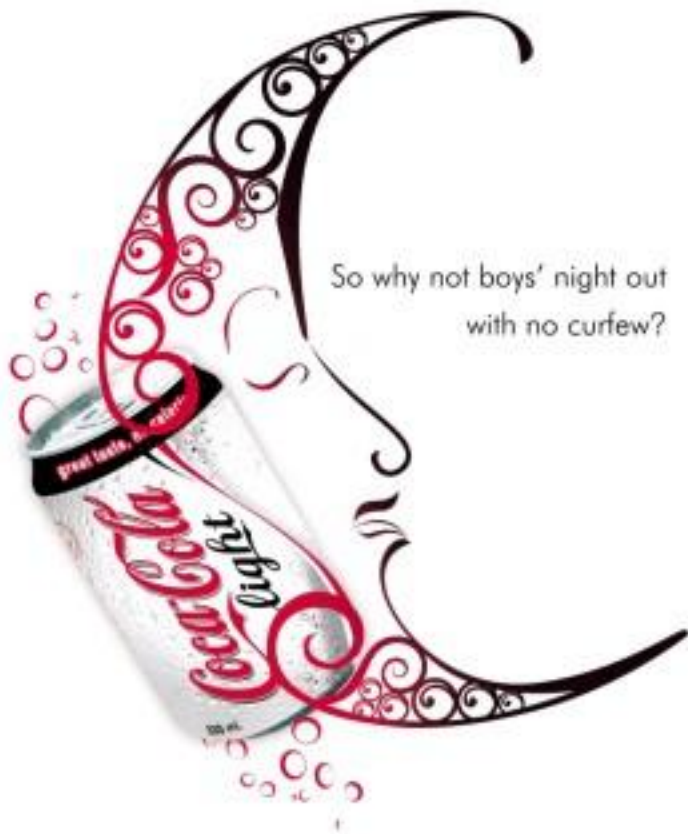

Herby's, guests and more is a better top-down view of the contest, with the products. Prizes were also called off to participants in the contest.
